## 5 Caribbean Villas Perfect for a Beach Destination Wedding

### Beach Enclave North Shore, Providenciales, Turks & Caicos

The island of Providenciales was traditionally imagined as a couples retreat, so it can be hard to find resorts with multiple beds per room—a less-than-ideal scenario for guests who are looking to save a few bucks by bunking up together. Instead of shelling out on expensive resort room blocks, book one of Beach Enclave's exclusive villas. Couples can take their pick among nine brand-new, sleek and sophisticated homes within a private resort community—currently located on the secluded North Shore, with an expansion to Long Bay and Grace Bay coming soon. Each of the four- to seven-bedroom beachfront properties feature indoor-outdoor design, gorgeous infinity-pools, a private beach, and multiple spacious decks for ceremonies and receptions. Not to mention elevated hilltop views of the island's entire North Shore, Princess Alexandra National Park, and barrier reef beyond. During their stay, couples and their guests can indulge in spa experiences, go sea kayaking or kite surfing, arrange private boating excursions, and even have their kitchen stocked before arrival—should you decide to whip up a lunchtime feast.
