

PRESS STATEMENT FROM OUR CEO, VASCO F BORGES

SEPTEMBER 18, 2017

Dear Travel Partners,

Hurricane Irma has passed through the Turks and Caicos and we are relieved to confirm all our team and their families are in good health and high spirits, and have only experienced some damage to their houses and property.

Overall we were spared the worst and Beach Enclave sustained no structural damages, only extensive landscaping damage. To this end, our properties will close to allow time to complete the necessary repairs and cleanup. We plan to re-open all 9 of our villas located on the North Shore on October 12, 2017.

Our amazing Beach Enclave team is already on-site working to deliver an even better experience than before. We have fully resumed administrative office functions including reservations. We are contacting guests and travel professionals who are booked to arrive over the period of closure to reschedule their stays.

We look forward to welcoming you back soon to Beach Enclave, the best way to support our beautiful island is to include Providenciales in your clients' upcoming travel plans.

Sincerely,

Vasco F. Borges
Co-Founder and CEO
Beach Enclave
