## Redefining the Luxury Villa Rental

For travelers who seek the privacy of a beach villa, yet appreciate the bespoke services and amenities of a luxury boutique resort, there is Beach Enclave North Shore. Set on ten acres of lush tropical gardens and private white sand beach in Providenciales – Turks and Caicos Islands, this new residential enclave comprises nine ultra-luxurious beachfront and ocean-view villas.

Stunning examples of contemporary beach architecture, the villas blur the line between outdoor and indoor living. Spanning 6,500 to 7,700 square feet, the open living spaces are layered with organic materials, including local wood and coral stone. Expansive glass sliding doors lead to private infinity-edge pools, signature outdoor showers and multiple terraces and decks for alfresco dining and lounging. Indoors, clean lines define gracious living areas, open layout chef-caliber kitchens and ocean-facing master suites.

Nowhere else in Turks and Caicos can guests enjoy a true private beach experience and the elevated views offered from each of the nine beautiful villas.
