By Lynn Walker

## GET ACQUAINTED

So many times, when a location is touted as adventurous, you will conjure up the vision of rustic. However, at the Harbour Village Beach Club, you will never sacrifice luxury and non-stop indulgence for non-stop adventure. Bonaire has been voted the #1 dive location by readers of *Scuba Diving Magazine*. It is located outside of what is known as “the hurricane belt;” giving residents, visitors and honeymooners, perfect weather year round with average temperatures of 82°F, and water temperatures of 80°F.

Harbour Village Beach Club is situated on a four-acre, private peninsula, all-encompassing an onsite PADI 5-star Dive Center, a private 64-slip marina, a full-service spa and a private white-sand beach offering breathtaking sunsets just outside your oceanfront suite. The resort presents 30 upscale, well-appointed guest rooms and suites with extensive amenities including complimentary wireless internet access and your own cozy hammock on a private patio. “STRESS BE GONE” you have arrived in paradise.
