### Zemi Beach House, Anguilla: Boutique chic on a stunning stretch of beach

When it comes to the archetypal island fantasy, no place delivers quite like Anguilla. And when you throw open the wooden shutters to step out onto your private terrace at Zemi Beach House, a dreamy expanse of white-sand beach and clear blue sea lays out before you. Zemi is all about unique experiences, from the aromatherapy massages at the spa—in a 300-year-old house imported from Thailand, no less—to single-estate flights from more than 100 rums, curated by the hotel's "rummelier." *Rooms from \$350 per night; [zemibeach.com](http://zemibeach.com).*

We love the Caribbean's high-low mix of glamorous resorts and laid-back beach bars. Whether you're looking for a luxury vacation or a low-key retreat, book a room at one of these new hotels for your next getaway.
