### Boutique chic on a stunning stretch of beach

**STAY** When it comes to the archetypal island fantasy, no place delivers quite like Anguilla. And when you throw open the wooden shutters to step out onto your private terrace at Zemi Beach House, a dreamy expanse of white-sand beach and clear blue sea lays out before you. Zemi is all about unique experiences, from the aromatherapy massages at the spa—in a 300-year-old house imported from Thailand, no less—to single-estate flights from more than 100 rums, curated by the hotel's “rummelier.” *Rooms from \$350 per night; zemibeach.com.*

**DRINK** On an island that's legendary for its beach-bar culture, Uncle Ernie's is an institution: a pastel-painted shack where barefoot travelers and dreadlocked locals sit at tables on the sand, indulging in spicy ribs and rum punch. *uncleerniesbeachbar.com.*
